

**DROID IT  
SECURITY  
ASSESSMENT**

---

# WHY YOU SHOULD PROTECT YOUR ASSETS

When it comes to the security of your technology and your company's data, do you know all of the risks? Here are some surprising statistics for 2021:

- **43% of cyber attacks target small businesses.**
- **60% of small businesses that are victims of a cyber attack go out of business within six months.**
- **3 out of 4 small businesses say they don't have the personnel to address IT security.**
- **Only 14% of small businesses rate their ability to mitigate cyber risks and attacks as highly effective.**

Without the same resources that large businesses have to keep customer data secure, small and mid-sized businesses are often targeted for cyber crimes.

# DO WE HAVE YOUR ATTENTION NOW?

Cybersecurity is no joke. That's why we put together this security assessment checklist so that you can determine how well protected your business is from IT security threats.

## DATA LOSS

- Restrictions set up on non-compliant data transfers
- Behaviors monitored on user-installed apps
- Suspicious behaviors surveyed
- Sensitive data is properly managed
- Regulated data is tracked
- Flow of sensitive data is regulated
- Email, cloud data, and personal files are encrypted

## HIPAA

- Is HIPAA compliance required for your business?
- If so, do you meet all compliance requirements?
- Do you have breach protection?

## OFFICE WIRING

- Cabling and wiring is durable, scalable, and dependable allowing for business growth

## **RANSOMWARE PROTECTION**

- Antivirus Protection
- Ransomware Behavior Detection
- File Modification Prevention
- All File Access Prevention
- File Recover
- Vaccination
- Ransomware Removal
- Anti-Ransomware Strategies in place

## **EMPLOYEE TRAINING**

- Data Management
- Removable Media
- Safe Internet Habits
- Physical Security and Environmental Controls
- Social Networking Dangers
- Email Scams
- Malware
- Hoaxes

## **SOC (SECURITY OPERATIONS CENTER)**

- SOC1 Compliant
- SOC2 Compliant
- SSAE Compliant

# HOW'D YOU DO?

Ensuring that you are sufficiently covered in each of the above categories is critical for your business to mitigate or eliminate downtime in order for your business to thrive. If you have holes in your IT security, FUSE3 can help.

**0 - 10 pts.**

**We NEED to talk.**

**11 - 15 pts.**

**Your doing alright.**

**16 - 25 pts.**

**Great job!**

**26 - 30 pts.**

**You're totally secure!**

Your score \_\_\_\_\_

## WE ARE YOUR DROID

You know how each galactic hero has a sidekick drone that has their back, assesses security risks, and fixes whatever needs to be fixed? FUSE3 is the perfect IT droid, ever-vigilant in watching your back so that you can go on being the hero.
